Summary

Cybersecurity student with practical exposure to web application testing, basic exploitation workflows, and foundational SOC analysis. Skilled in using tools like Burp Suite, Nmap, Wireshark, and ELK to identify vulnerabilities, analyze traffic, and understand attacker behavior. Comfortable working with both offensive techniques (XSS, input manipulation, API exploitation) and defensive practices such as log review and incident triage. Actively building hands-on projects and seeking opportunities that allow me to grow further in penetration testing, application security, and adversary-focused analysis, while continuing to strengthen my SOC fundamentals.

Education

B. TECH IN COMPUTER SCIENCE AND ENGINEERING (CYBERSECURITY) | KTU

- University: APJ Abdul Kalam Technological University (KTU)
- Institute: Rajadhani Institute of Engineering and Technology
- Year: Expected by 2026

12TH GRADE | KERALA STATE BOARD

- Institute: St Aloysius Higher Secondary School,Kollam
- Percentage: 92%
- Year: 2022

10TH GRADE | ICSE

- Institute: Infant Jesus Anglo-Indian Higher Secondary School,Kollam
- Percentage: 85%
- Year: 2020

Technical Skill

- **Operating Systems:** Linux Distributions , Windows
- **Security Tools:** Nmap, OpenVAS, Burp Suite, OWASP ZAP, Metasploit, Recon-ng, Wifite, Social-Engineer Toolkit (SET),GoPhish,Splunk,Elastic Stack(ELK)
- **Networking Tools:** Wireshark, Tcpdump, Netcat, Angry IP Scanner
- **Forensics & Malware Analysis:** Autopsy, FTK Imager
- **Password Cracking & Auditing:** John the Ripper, Hydra, Hashcat
- **Scripting :** Python, C
- **Cryptography:** AES, Digital Signatures, Hash Functions

Projects

- **Secure Image Transfer: Ownership Verification with One-Time Password and Image Obfuscation**
Developed a secure image transfer system integrating One-Time Password authentication, image obfuscation, password strength checking. The project ensures safe transmission and ownership verification of digital images through multi-layered protection, including OTP-based validation and real-time password analysis for improved cybersecurity practices.
- **OWASP Juice Shop – Web Application Penetration Testing**
Performed XSS injection, manipulated API requests using Burp Suite, and analyzed backend vulnerabilities. Documented attack vectors and wrote a formal security report.
- **SOC Alert Monitoring & Incident Response Simulation**
Investigated failed login attempts, suspicious IP connections, and malware alerts.
Created an Incident Response Report with severity classification and mitigation steps.
- **Secure File Sharing System**
Developed a secure end-to-end file-sharing platform focused on confidentiality, integrity, and controlled access. Implemented encryption workflows and user authentication to ensure protected file transmission in a multi-user environment.
- **Pi-Pot: Portable Wireless SSH Honeypot using Raspberry Pi (Current)**
Developing a portable wireless SSH honeypot on Raspberry Pi to detect and log unauthorized SSH login attempts. The project focuses on real-time attack monitoring, data logging, and threat pattern analysis, enabling flexible deployment for cybersecurity research and network defense studies.

Internships

Cyber Security Intern – Future Interns

- Conducted web application security testing on OWASP Juice Shop using OWASP Top 10 methodology.
- Identified vulnerabilities such as XSS, IDOR, and input validation flaws using Burp Suite and OWASP ZAP.
- Performed manual exploitation using Burp Repeater and documented findings in a structured security assessment report.
- Completed SOC simulation tasks including SIEM log analysis, alert triage, incident severity classification, and IR documentation.

Tools: Burp Suite, Splunk (Free Trial), ELK Stack (Demo), OWASP ZAP.

Workshops & Training Sessions

- Workshop on Hackathons
- Workshop On Secure Surf
- Workshop On Cyber Defense
- Workshop on GitHub
- Workshop on Firewalls

Certifications

- **Cyber Security Internship Certification – Future Interns**
Credential ID: FIT/NOV25/CS4522
Credential URL: <https://futureinterns.com/verification/?cin=FIT/NOV25/CS4522>
- **CyberPeace First Responders & Myth Busters (Google.org Supported) – Scored 140/150**
- **OSINTCON 2025 – Open Source Intelligence & Cybercrime Awareness**

Professional Memberships & Global Affiliations

Internet Society (ISOC) – Global Member

Active Member of **Cybersecurity SIG**

Member of India Chapters: Bengaluru, Chennai, Hyderabad

Member of IoT (Internet of Things) Group

Engaged in discussions on cybersecurity, digital trust, and internet governance

Volunteering and Leadership Initiatives

1. ROOT RIET | FINANCIAL LEAD (OCTOBER 2024-PRESENT)

Initiated plans for managing and overseeing the organization's financial health . Managed and mentored finance team members ensuring they are equipped with necessary skills.

2. COMPUTER SOCIETY OF INDIA(CSI) | FINANCIAL LEAD (JUNE 2025-PRESENT)

Initiated plans for managing and overseeing the organization's financial health .

Languages

1. ENGLISH
2. MALAYALAM
3. HINDI
4. TAMIL
